

NEOLINE N2

Ideal for light boxes and channel letters with a depth of 50 - 100 mm. To achieve uniform illumination only 25 modules per 1 square meter of a construction is enough. With the new optics a distance between centers of modules is equal to double depth of a construction. For a depth of 100 mm a distance between centers of modules - 200 mm. Power consumption - 18 W/sqm. Increased brightness - 70 lm. Various versions of color solutions ● 7500K ● ● ● ● ●

Installation:

- Light boxes and channel letters
- Recommended installation depth is 50 - 100 mm

Features:

- With the new optics the distance between centers of modules is equal to double depth of a construction.
- For a depth of 100 mm a distance between centers of modules - 200 mm.
- The smallest quantity of modules per 1 square meter on the market!
- Special polycarbonate lens with light transmittance > 88%
- Maximum T_j temperature < 80°C
- Light decay < 30% after 40,000 h.
- LM80 international certificate for LEDs.
- HB fire protection level
- High protection level IP66
- 5 years warranty
